nature of strategic change management introduction nature of strategic change management  
organizational politics and power organizational politics source of the organization politics power sources of power  
organizational conflict conflict is good or bad sources of conflict process of the organizational conflict model conflict resolution strategies  
implementing strategic change steps in the changing process determining the need for change determining the obstacles to change implementing change evaluating change

the cost to business of unresolved conflicts is high in terms of expensive tribunals loss of productivity resignations and potentially loss of reputation for both individuals and the organization overall written by authors experienced in the field this book addresses these key issues

managing change is about managing conflicting views and competing interests trading

partners seek protectionism even as they demand a levelling of the playing fields under tariff agreements consumers want quality goods at cheaper prices while shareholders seek better returns on their investments nations want to expand their territories whilst reclaiming historical losses or achieving greater regional security people living under authoritarian regimes want their human rights and an end to oppression everywhere there are pushes to realign relations within and between nations communities and organisations everywhere there are associated tensions this eagerly anticipated third edition of managing change negotiating conflict examines the causes and characteristics of conflict and provides insights and skills to those who seek to manage such situations through negotiation joint problem solving and mediation case studies drawn from as far afield as rwanda and burundi iraq israel as well as from south africa explore the application of these conflict management skills in a variety of scenarios including political transitions and civil demonstrations and the transformation of organisations in both the private and public sectors because the authors draw examples from such a wide range of studies the book will be invaluable to students academics practitioners and policy makers in the fields of international relations political sciences labour relations and human resources

this book offers a multidisciplinary exploration of how climate change is impacting conflicts contention and competition in the world the volume examines how climate change is creating and exacerbating insecurities for millions of people globally and how states inter governmental bodies and others are attempting to meet challenges today and in the near and medium term it shows that climate change insecurity is relevant to a battery of security areas including warfighting stabilisation human security influence and resilience and capacity building the volume provides insights into how climate change has and will impact security at different scales and in different localities including national and ethnic tensions food and water security resource competition mass displacement and even the recruitment profiles and operations of violent and extremist organisations with contributions from pioneering researchers and practitioners the book discusses shifting operational requirements and responsibilities and the need for clarity around the size and shape of capacity gaps in addition to practitioners and policy makers working in these areas the book will be of significant interest to researchers and students of defence studies peace and conflict studies climate change and environmental security and international relations

this book is simply a must for all those concerned by climate change

in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

a capacity for learning adapting and changing is an important facet of organizational resilience what is involved in generative organizational change is it an event a process or constantly ongoing what makes organizational change good for the organization who has the power to decide what is good for the organization and its members how is it decided what if there is strong disagreement or conflict how is that handled what is the role of organizational

members and leaders in these discussions as these questions demonstrate the triad of change power and conflict are intimately linked the purpose of this book is to explore the topics of change power and conflict as they relate to the experiences of everyday organizational life it will provide readers the opportunity to reflect critically on their own local experience and involvement in organizations and to glean actionable wisdom for meaningful engagement and impactful contributions to their organizations in the present and future conflict power and organizational change will be of interest to students researchers academics and professional colleagues interested in the fields of business and organizational studies especially those wanting to get acquainted with the concepts of change power and conflict in contemporary organizational settings

education is intimately connected to many of the most important and contentious questions confronting american society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance elementary and secondary schooling has long been the province of state and local governments but when george w bush signed into law the no child left behind act in 2002 it signaled an unprecedented expansion of the federal role in public education this book provides the first balanced in depth analysis of how no child left behind nclb became law patrick mcguinn a political scientist with hands on experience in secondary education explains how this happened despite the country s long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools his book provides the essential political context for understanding nclb the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare he places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 elementary and secondary education act chronicles the concerns raised by the 1983 report a nation at risk and shows how education became a major campaign issue for both parties in the 1990s mcguinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict mcguinn traces the republican shift from seeking to eliminate the u s department of education to embracing federal leadership in school reform then details the negotiations over nclb the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform

vol 1 issued as papers presented at a peace research conference

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from

several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life

csa sociological abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences the database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers
